

[illegible]

The timeline illustrates the progression of the COVID-19 pandemic in the United Kingdom. It begins in March 2020 with the first case and the start of the first wave. The timeline is divided into sections by color: yellow for early 2020, green for mid-2020, blue for late 2020, and red for early 2021. Key events are marked with dates and descriptions, including the implementation of the NHS Test and Trace system, the introduction of the COVID-19 vaccine, and the start of the second wave.

Date	Event
23 March 2020	First case of COVID-19 in the UK
23 April 2020	First wave of COVID-19 begins
23 May 2020	First wave of COVID-19 ends
23 June 2020	Second wave of COVID-19 begins
23 July 2020	Second wave of COVID-19 ends
23 August 2020	Third wave of COVID-19 begins
23 September 2020	Third wave of COVID-19 ends
23 October 2020	Fourth wave of COVID-19 begins
23 November 2020	Fourth wave of COVID-19 ends
23 December 2020	Fifth wave of COVID-19 begins
23 January 2021	Fifth wave of COVID-19 ends
23 February 2021	Sixth wave of COVID-19 begins
23 March 2021	Sixth wave of COVID-19 ends
23 April 2021	Seventh wave of COVID-19 begins
23 May 2021	Seventh wave of COVID-19 ends
23 June 2021	Eighth wave of COVID-19 begins
23 July 2021	Eighth wave of COVID-19 ends
23 August 2021	Ninth wave of COVID-19 begins
23 September 2021	Ninth wave of COVID-19 ends
23 October 2021	Tenth wave of COVID-19 begins
23 November 2021	Tenth wave of COVID-19 ends
23 December 2021	Eleventh wave of COVID-19 begins
23 January 2022	Eleventh wave of COVID-19 ends
